

How to move account to under Dudes Lab if you already have an existing account?

Note:

- this works only if you haven't used someone else's affiliate link.
- If you have used someone else's affiliate link, you can still register under our link by doing KYC again using your driving license.
- If you don't have an account yet, you can register your account under our affiliate link: <https://partner.bybit.com/b/dudeslabs> (Be aware of cookies, you can avoid it by using Incognito mode/VPN)

1) If users are not registered under any affiliate follow below instruction to move account

Click on link here: <https://www.bybit.com/en-US/help-center/s/webform>

fill up the form as below example:

What is your UID

Check your UID: [Here](#)

*Indicate your email address

Complete this field.

Please provide a brief description of the issue

Hi I would like to bind my UID under this Affiliate code: 68755

Please and Thank you.

"Hi i would like to bind my UID under this affiliate code: 71610

Make sure the affiliate code 71610 is mentioned

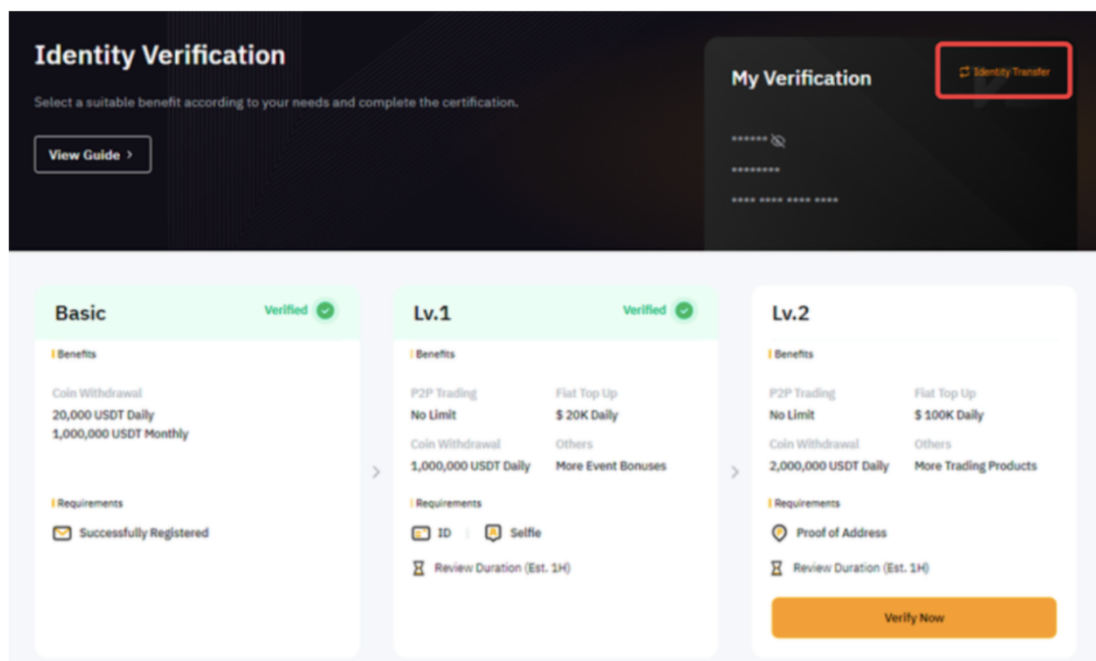

2) If the user is already under any affiliate or register under referral (KYC transfer)

user need to register a new account using Dudes lab affiliate link after follow the below step to do the KYC transfer

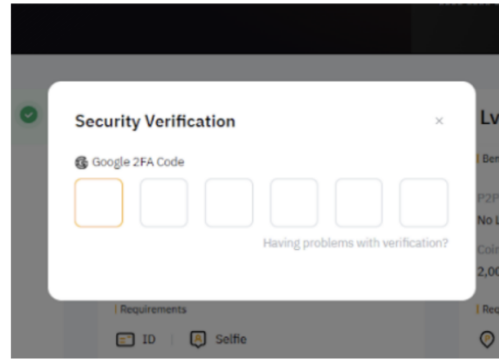

Step 1: Go to your Identity Verification and click on Verify Now

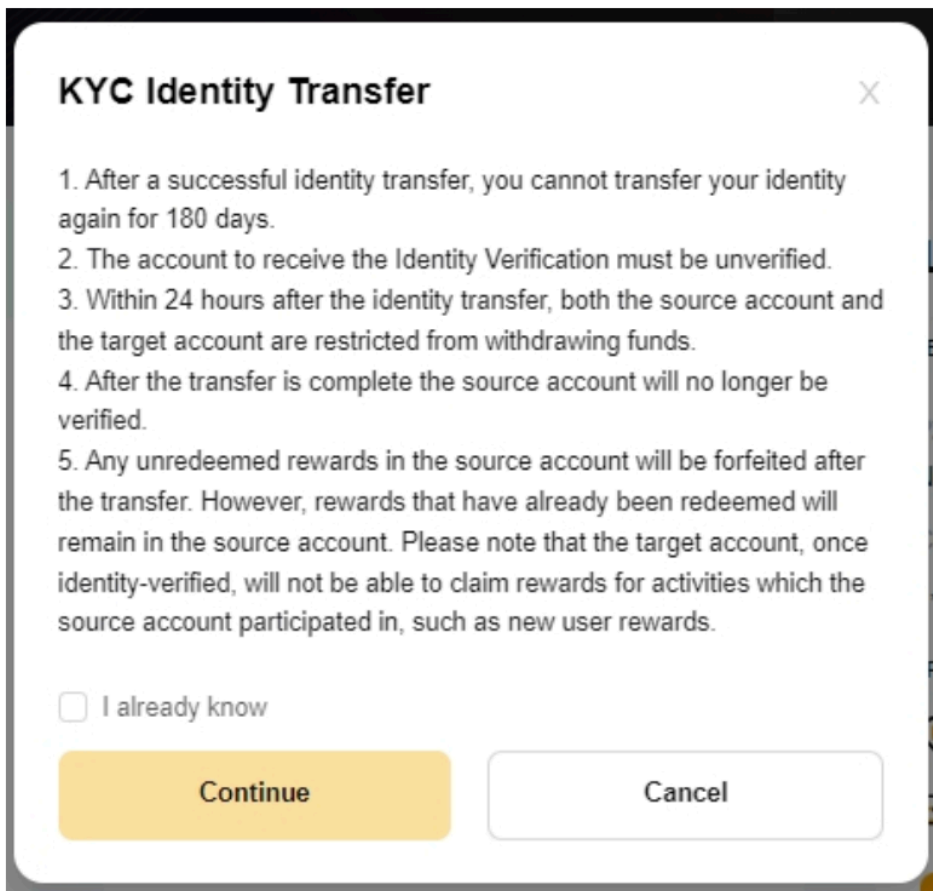

Step 2: Click on the Identity Transfer button in the upper right corner of the Identity verification page. (<https://www.bybit.com/user/accounts/auth/personal>)

Step 3: To ensure the security of your account and funds, you will be required to complete some verification of your current account, such as facial recognition or a security verification code. Please ensure you have followed the instructions displayed on the screen.

Step 4: Before starting the Identity Transfer, please make sure you have acknowledged the Terms and Conditions in the pop-up window and click on Continue.

Step 5: Make sure to fill in the correct registered email address or mobile number of the target account and click on Continue.

The image shows two screenshots of a mobile application dialog box titled "Fill in the transfer account number".

The left screenshot shows the "Email" tab selected. It features a warning message: "Please make sure that the account you want to transfer your identity to is your own." Below this is an input field labeled "Email" with the placeholder text "Please enter your email address". A yellow "Continue" button is at the bottom.

The right screenshot shows the "Mobile number" tab selected. It features the same warning message. Below it is a "Country/Territory" dropdown menu with "please select" as the current selection. Underneath is an input field labeled "Phone number" with the placeholder text "Please enter your cell phone number". A yellow "Continue" button is at the bottom.

Step 6: Complete the Security Verification by entering your email or SMS verification Code sent to your target account.

The image shows a "Security Verification" dialog box. At the top, it says "Security Verification". Below that, there is a message: "A verification code will be sent to" followed by a blurred input field. Underneath this are six empty square boxes for entering the code. At the bottom, there is a link that says "Not able to receive verification code? Send Verification Code".

Step 7: You will have successfully transferred the identity information to the target account after you have passed the verification. Your current account will return to unverified status.

The transfer is successful

Your authentication level has been transferred to the new account
